

# ST. GEORGE'S

---

## - GUARDIANS -

St George's Guardians is made up of a dedicated group of professionals who have come together to provide care, assistance and safeguarding to students from around the World. We aim to help them reach their desired goals in an environment where they feel safe and happy.

Our loyalty is to our students and their parents, making every effort to reduce any separation anxiety whilst also being respectful of the many rules and regulations in place at their schools. We always create a reliable and close working relationship with school staff and management which we believe is essential and puts in place a very important ring of co-operation between all parties resulting in a safer happier environment for the student.

We take time to understand and listen to the many needs of our students as they start to settle into their new home. At this time for those who need that little extra help, we will encourage them to explore new sports and pastimes, to join in with school clubs and attend school trips and events. These activities are designed by the schools to help speed up their settling in process and very importantly make new friends which enhances their physical and mental wellbeing (NMBS (22.3))!

It is important that students under our care, feel that they are not just at 'a school', but they are part of one big international Family! **They may be away from home, but they will never feel alone!** The St George's Team will always be at the end of the phone and aims to be with them on campus in under 30 minutes if needed, and always available to listen and help with any worries they may have.

The physical and mental wellbeing of the Student / Child (NMBS (22.3)) is always the priority for St George's Guardians from the minute they arrive in

the UK, until the minute they leave. We are dedicated to our students at all times, enabling them to enjoy to the fullest their experience of study and discovery whilst visiting this Country. We are only ever a phone call away!

St Georges Guardians are members of AEGIS, and BSA and as such have passed all the necessary exams and processes that are required by each of these well regarded organisations. We have the highest rated certificates in child safeguarding which are constantly being updated as and when new Government guidelines are issued.
